

# Engineering America

## **Kendall Smith**

Kendall Smith joined Engineering America as Regional Manager of the West office in Loveland, Colorado. Kendall has over 30 years of experience in the storage tank industry. He was promoted to Vice President and member of the Board of Directors in early 2006.

The West office is a general contractor specializing in the supply and installation of water and wastewater storage tanks for industries and municipalities in the mountain states of Colorado, Utah and Wyoming. Kendall has been an active member of these states' rural water associations and he regularly travels to Washington, D.C. and represents the West office in the National Rural Water Rally.

Kendall was with Peabody TecTank for seventeen years (1979-1996), holding a variety of positions in manufacturing, engineering, sales, customer service, dealer relations, and general management. He began his career as a laborer with TecTank, working summer jobs while attending college.

From 1996 to 2004, prior to joining Engineering America, Kendall was Manager of Liquid Sales for CST Storage (formerly A.O. Smith Harvestore Products) in its Municipal and Industrial Liquids division.

Born in Kansas, Kendall received an Associate Degree from Neosho Community College. He has furthered his education with college and technical courses on strength of materials, business industrial technology, computer technology, and marketing.

Kendall has been an active member of the Board of Trustees of the Federated Methodist Church, holding both the chairman and vice-chairman positions for periods of two years. He lives in Windsor, Colorado, with his wife and they have two adult daughters. Interests include hunting, golfing, hiking, and enjoying the great outdoors.
